

Panel 9 - Women who lead; closing AI's Leadership gap

- Danae → Product Leader
- Sarah → Founder FundHER
AI Ethics
- Faith → CEO; AI Strategie - Transformation 21st limited
- Leslie → Advisor; The intuitive edge
- Juliet → Mission AI; U60 (non-profit)

-
- 1) Capital allocation (funding)
 - 2) Product manager role
 - 3) Career ladder

1) capital deployment

H1 2026 → 600 bn \$

2025 450 bn \$

Grow AI?
Entropics + Open AI are very funded..

- more difficult to raise money
- Every pitch deck has AI in it
- Tech. aspect needed e.g. robotics

VC usage of AI

- Launch and operate new funds got easier!
- Pre-seed & seeding highly personal still!
AI helpful but human judgement still needed
- AI provides access but proposal flood might lead to issues on receiver side (Funding, Application)

⇒ Relationship factor still matters

- 2) Leaders get on train + try to run business
- 1) capability → upskilling on AI, tools, confidence
 - 2) culture → AI changes way we work!
Promote expertise

Experiment, Fail culture

3) commercial value add

↳ what do I get out of AI?

⇒ AI amplifies the culture!

Human behind technology is key! ▽

⇒ Limit org change & avoid 3-4 shifts a year!

3) Career ladder

- Entry level positions being automated
- Business reconfiguring to be adapted to AI
- Not redesign but have a new org

• Curiosity

• step up & get ownership, visibility & proactivity

• personal brand (LinkedIn etc.)

• Authority & decision power ⇒ How do people talk about me?

• Build not just a consumer!
