

Not your weights, not your brain

18:45

open model : Benefits

- Innovation
- Adaptability
- Control
- Safety

- Access to frontier → GLM 5.2 ? → chinese
- Gemma 4 → new
- community builds on open models!
- Qwen 3.8 = Model = Alibaba Cloud
- Nvidia + Hugging Face = SEC
- Frontier; open models, local models

unterschied:

closed

Frontier modell

- Cloud + im Abo = Subscription
hosted Modell API
- Claude (Anthropic), GPT (OpenAI)
Gemini (Google)
- closed model
proprietary

Open weight = local installierbar

- open model
- Model weights are available
- downloadable & run locally / on
- prem
- GPT, GLM, Llama, Mistral etc.
- can be also cloud hosted

→ use data to train model & finetune
and / or

→ search for models that score well in
specific domain !

→ mit „lokalen“ Modellen testen !
